Lenders ask govt to add EV battery number to RC

Bengaluru: Fraudsters are buying electric vehicles on finance, selling the vehicle's new battery – which is often more than 50% of the cost of the vehicle – installing a used battery, defaulting on payments, and surrendering the vehicle. This is impacting the business of financiers. So, the Finance Industry Development Council, a representative body for non-bank lenders in the country, has asked transport minister Nitin Gadkari to include battery number in the registration certificate of EVs.
